Mathematical Modelling in Medicine

July 20th – August 28th 2009, Luminy, Marseille, France

Summer school Research session

July 20th – 25th

July 27th – August 28th

Invited speakers:

Georges-Henri Cottet

(Université Joseph Fourier, Grenoble)

Dirk Drasdo

(INRIA, Paris Rocquencourt)

Marc Lavielle

(Université Paris-Sud, Orsay)

Nikos Paragios

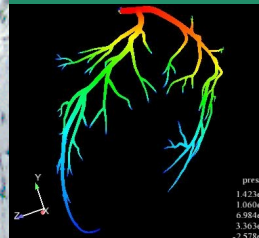

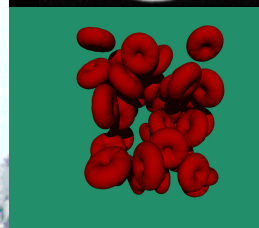

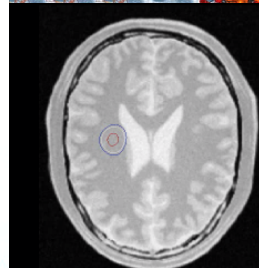

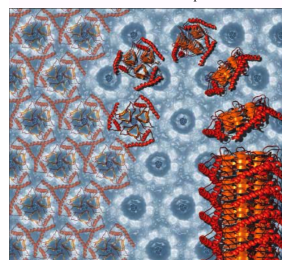

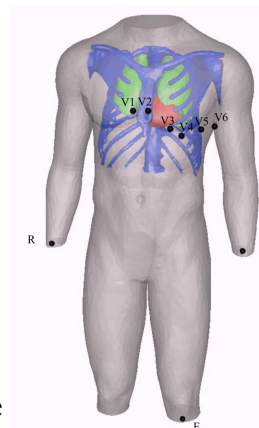

(Ecole Centrale, Paris)

Cemracs'09 research session is the opportunity for mathematicians and biologists to address some of the challenges in scientific computing raised by the modelling of biological problems issued from medicine.

Six-week young researcher grants are available

Deadline for application: April 30th

contact: cemracs@smai.emath.fr

Organizing Committee:

D. Bresch (CNRS, Univ. Savoie)

E. Gréner (ENS Lyon)

V. Calvez (ENS Lyon)

M.-A. Dronne (Univ. Lyon 1)

T. Dumont (Univ. Lyon 1)

V. Louvet (Univ. Lyon 1)

P. Vigneaux (ENS Lyon)

CEMRACS is a scientific event organized every year and promoted by the french Society for Applied and Industrial Mathematics (SMAI). CEMRACS'09 is part of the GdR MABEM CNRS action.
